

T2EQ-C8X5

Exceptional range of motion. Precise positioning.

NEW easy to install cable management system.

- Industry-leading range of motion of the arm and monitor.
- With multiple pivot points, this arm enables vertical and horizontal adjustments along with 360° of rotation.
- The Titan Elite allows a monitor to be securely mounted from the ceiling or headwall shelf, pulled down when needed, then stowed up and out of the way.

Fingertip control

- Feather-light movement.
- Fully enclosed gas cylinders.
- Engineered for years of reliable service and quiet operation.
- Powder coated and anodized for long wear and easy cleaning.
- Wire management through the arm.

NOW EASY TO WIRE
Does not require
disassembly.

Wires run through
the joints.
